Investment Objective

The Protected US With Bonus funds are designed to provide returns that based on the performance of the S&P 500 index, whilst providing a defined level of capital protection each quarter. The aim of the funds is to outperform similarly riskgraded international managed funds in times of low market growth.

How the Fund Works

At the start of each quarter a bonus is declared for the index. This is added to the protected amount at the end of the quarter as long as the index does not end the quarter below its strike level. A partial bonus will be paid if the index has fallen by less than 5%. Thus, unless the index ends the quarter 5% below its starting level, a bonus will be paid.
