

POLICY CHARGES. WITH QUANTUM MALAYSIA, IT'S CLEAR CUT

With so many savings products available, you may feel like you can't see the wood for the trees when comparing the different charges that apply. Why not cut through the forest of numbers with our competitively priced regular savings product – Quantum Malaysia.

We make all of our charges transparent through the product (not funds) meaning the investment manager's quoted performance for their fund is exactly the fund performance your client can expect within their policy.

In addition

We do not apply any initial fund charges, no switching, dealing or custodian fees and no additional credit card fees.

And there's more...

With extra allocation for larger premiums and direct access (not mirror funds) to a comprehensive fund range, Quantum Malaysia should be top of the list when discussing regular savings solutions with your clients.

Question

So what's it going to cost my client?

Answer

Not as much as you may think. The following table provides examples of the investment growth required to cover all the product charges over the premium term, assuming that all premiums are paid and no withdrawals are taken.

Important notes

For financial advisers only. Not to be distributed to, nor relied on, by retail clients.
