IMPORTANT NOTES

This flyer should be read in conjunction with the relevant product literature which includes the Plan Guide and the Investment Fund Guide.

It is important to know that unit prices reflect the value of the underlying assets of the funds and so can go down as well as up. Past performance is not indicative of future performance. Where a fund invests in overseas securities, the unit prices may also rise and fall purely on account of exchange rate fluctuations. RL360 is not responsible for, and will not compensate plan owners in relation to, the performance of their underlying funds. We make no warranty as to the performance of the funds.

Owners of plans issued by RL360 receive the protection of the Isle of Man Compensation of Policyholders protection scheme, which covers an amount equal to 90% (subject to the provisions of the scheme) of RL360's liability where it is unable to meet its financial obligations. RL360 reserves the right to adjust the returns to cater for any levy or charge made on it under the regulations or similar legislation.
