IMPORTANT INFORMATION

INTRODUCTION

This guide is intended for Protected Lifestyle Lebanon.

For LifePlan Lebanon please refer to the LifePlan Lebanon Protection Fund Guide for the relevant fund choices.

This guide provides you with information about the funds that your plan can invest into.

Some funds perform better than others during the ups and downs of market conditions so we provide you with a range of funds in different sectors and asset classes with different risk ratings.

ASSESSING RISK

To help you understand the level of risk attached to each fund, a risk vs reward scale of 1 to 7 is used.

The scale is calculated using a European industry standard, with 1 indicating lower risk and 7 being higher risk.

You will see the risk indicator in a document referred to as the “KIID”. This is the Key Investor Information Document. You can find copies of these online via your specific product fund centre on our website at www.rl360.com/fundcentres

If for any reason a fund within the range doesn't use this standard or produce a KIID, our fund data provider, Morningstar, calculates the appropriate risk rating for us.

DIGGING DEEPER

Your adviser can provide you with professional support in choosing the right funds to meet your objectives, but if you want to know more for yourself we provide access to more than just the KIID.

In the Documents section of our online fund centre you will find these documents provided by each fund manager:

Fund Prospectus - a legal document that details the investment objective, policy and strategy of a fund or group of funds. This is an in depth and technical document.

Factsheet - usually produced each month providing a summary of performance, holdings and charges.

The fund centre is also a great place to keep up to date with daily price changes and performance over a selection of time periods and methods. It allows you to produce graphs, look at several funds side by side and produce a printable performance bulletin for all the funds in the range.

It even lets you filter the range of funds in a number of ways including by risk rating. Our online fund centre is updated daily and is the very best place to go to ensure you have all the latest fund information available.

MAKE YOUR SELECTION

The following overview lists each fund available by sector along with a range of information about it. Most of these are clear, but some terms you might be unfamiliar with, so here is an explanation:

ISIN - this is simply a reference which identifies the fund in line with international standards.

Domicile - this is where the fund structure has been established, many of which will be in Luxembourg.

AMC % - annual charge applied by the fund manager for running the fund, already taken into account in the fund price.

Perf fee % - this is a performance fee that may become payable where the fund performance has exceeded a certain amount (in fund literature you might see this referenced as the “benchmark”, “hurdle rate” or “water mark”). Performance fees are normally payable in addition to the AMC but also reflected in the price. The fund prospectus will tell you more.

Fund of funds - this is when the fund invests into a series of other funds, these may be offered by the same fund company or multiple other fund companies.

Morningstar Sustainability Rating - the intention of the Sustainability Rating is to provide an objective measure for how a fund is managing Environmental, Social and Governance (“ESG”) risks. A fund with a 5/5 score has underlying investments that are considered strong at interacting with the environment around them, the people that they deal with and are well governed. This should mean that they are well equipped to deal with future market environments, take advantage of opportunities and survive through regulatory change.

You can choose up to 5 funds for your plan and can switch between them at any time. A switch form is available on our website to help you do this. If you are registered to view your plan online and have applied for online switching, you can even conduct your own switches online quickly without the need to post any forms to us.

Data is sourced from Morningstar® and is correct as at 20 February 2023.

Please note that for external funds a bid/offer spread of 2.5% applies to each fund. This means you buy units at the offer price which are then valued in your plan at the bid price. The bid price is 2.5% less than the offer price. For the Internal Funds the bid and offer price will be the same.

FUND OBJECTIVES

Currency/Money Market UBS (Lux) Money Market Sustainable

The fund is a Standard VNAV Money Market Fund as classified by the EU Regulation on Money Market Funds and invests only in diversified, high quality money market instruments with a first class credit rating that exhibit a solid ESG characteristics (environmental, social and governance). The weighted average maturity of the securities in the portfolio may not exceed 6 months, while the final maturity of any fixed interest rate investment may not exceed 1 year. The fund is suitable for investors wishing to invest in a portfolio that generates long-term performance consistent with prevailing money market indices, and that promotes environmental, social and/or governance considerations.

Equity - Asia Pacific Including Japan

Matthews Asia - Asia Dividend
The fund aims to provide total return through capital appreciation and current income. The fund seeks to achieve its investment objective by investing, directly or indirectly, primarily (i.e., at least 65% of its net assets) in income-paying publicly traded common stocks, preferred stocks, convertible debt and equity securities of any maturity and in those that are unrated, or would be below investment grade if rated, and other equity-related instruments of companies located in or with substantial ties to the Asia Pacific region. On an ancillary basis, the fund may invest in other permitted assets on a worldwide basis. For the purpose of this policy, the Asia Pacific region consists of all countries and markets in Asia, as well as Australia and New Zealand including all developed, emerging and frontier countries and markets in Asia.

Equity - Europe Including UK Jupiter Global Funds - Jupiter European Growth

The fund objective is to achieve long-term capital growth by exploiting special investment opportunities in Europe.

Equity - Global BNY Mellon Sustainable Global Equity

Seeks to achieve a long-term capital growth through investment primarily in a portfolio of equity securities of companies located worldwide that demonstrate attractive investment attributes, and that meet the Investment Manager's environmental, social and governance ("ESG") and sustainability criteria.

Fidelity Funds Global Dividend

Aims to provide income and long-term capital growth. At least 70% invested in income producing company shares globally. The choice of assets is guided by attractive dividend yields in addition to the potential for capital growth.

Franklin Templeton - Franklin Mutual Global Discovery

The fund aims to achieve capital appreciation by investing in common stock, preferred stock and debt securities convertible or expected to be convertible into common or preferred stock of mid or large-cap companies of any nation with a market capitalisation around or greater than US\$1.5 billion. It may also seek to invest in the securities of companies involved in mergers, consolidations, liquidations and reorganisations.

Invesco Global Equity Income

The fund aims to generate a rising level of income, together with long term capital growth, investing primarily in global equities. In pursuing this objective, the Investment Adviser may include investments that they consider appropriate which include transferable securities, money market instruments, warrants, undertakings for collective investment, deposits and other permitted investments.

Janus Henderson Global Equity

The fund aims to achieve above average long-term capital growth, in excess of long-term capital growth that is typically achieved from global equity markets. The fund will invest principally in a concentrated portfolio of global securities with a bias to those companies that have developed strong franchises and competitive advantages. These companies will typically operate in markets that the Investment Manager believes will offer sustainably high levels of growth.

Equity - North America

Franklin Templeton - Franklin US Opportunities

The fund aims to achieve capital appreciation by investing principally in equity securities of US companies believed to possess sustainable growth characteristics and which meet growth, quality and valuation criteria. These include small, medium, and large capitalisation companies with strong growth potential across a wide range of sectors that have exceptional growth potential and fast growing, innovative companies within these sectors.

Schroder ISF US Small & Mid-Cap Equity

To provide capital growth primarily through investment in equity securities of smaller and medium-sized US companies. Smaller and medium-sized US companies are considered companies which, at the time of purchase, form the bottom 40% by market capitalisation of the US market.

Fixed Interest - Asia

BlackRock Global Funds - BGF Asian Tiger Bond

The fund looks to maximise total return by investing at least 70% of its total net assets in the fixed income transferable securities of issuers domiciled in, or exercising the predominant part of their economic activity in, Asian Tiger Countries. The fund may invest in the full spectrum of available securities, including non-investment grade. The currency exposure of the fund is flexibly managed.

Schroder ISF Asian Bond Total Return

The fund aims to provide capital growth and income by investing in fixed and floating rate securities issued by governments, government agencies, supra-nationals and companies in Asia.

Fixed Interest - Global

BNY Mellon Global Bond

The fund aims to maximise total returns from income and capital growth through investment primarily in a portfolio of international sovereign, government, agency, corporate, bank and asset backed debt and debt-related securities and in derivatives.

Jupiter Dynamic Bond

The investment objective of the Fund is to achieve a high income with the prospect of capital growth from a portfolio of investments in global fixed interest securities. The Fund will invest primarily in higher yielding assets including high yield bonds, investment grade bonds, government bonds, preference shares, convertible bonds and other bonds. The manager will only enter into derivative transactions for the purpose of efficient management of the portfolio including, but not limited to, forward currency transactions to hedge exposures back into Euros, and not for investment.

PIMCO GIS Global Investment Grade Credit

The fund is an actively managed portfolio that invests at least two-thirds of its assets in primarily investment grade global corporate and credit instruments. Portfolio duration may vary within two years of the benchmark and the fund may tactically invest up to 15% of assets in below-investment grade issues.

Fixed Interest - US Dollar

JPMorgan - JPM US Bond

The aim of this fund is to achieve a return in excess of US bond markets by investing primarily in US bonds and other debt securities, using derivative strategies where appropriate.

Natixis Loomis Sayles Multi Sector Income

The fund aims for a high total investment return through a combination of current income and capital appreciation. It will invest at least 51% of its total assets in bonds and other related fixed income securities. It may invest up to 49% of its total assets in cash, money market instruments or other securities.

Global Managed

BlackRock Global Funds - BGF Global Allocation

The fund seeks to maximise total return. The fund invests globally in equity, debt and short term securities, of both corporate and governmental issuers, with no prescribed limits. In normal market conditions the fund will invest at least 70% of its total net assets in the securities of corporate and governmental issuers.

First Eagle Amundi International

The fund seeks to offer investors capital growth through diversification of its investments over all categories of assets and a policy of following a "value" approach. To pursue its goal, it invests two-thirds of its net assets in equities, equity-linked instruments and bonds without restriction in terms of market capitalisation, geographical diversification or in terms of what part of the assets of the fund may be invested in a particular class of assets of a particular market.

JPMorgan - JPM Global Balanced

To provide long-term capital growth and income by investing primarily in companies and debt securities issued or guaranteed by governments or their agencies, globally and using financial derivative instruments where appropriate.

MFS Meridian Global Total Return

The fund's objective is total return, measured in US dollars. The fund invests in a combination of equity securities and debt instruments of issuers located in developed and emerging market countries. Historically the fund has invested approximately 60% of its assets in equity securities and 40% of its assets in debt instruments, but these allocations may vary generally between 50% and 75% in equity securities and 25% and 50% in debt instruments. The fund generally focuses its equity investments in larger companies it believes to be undervalued compared to their perceived worth (value companies) and its debt investments in corporate, government, and mortgage-backed debt instruments.

Islamic**Franklin Templeton - Franklin Global Sukuk**

To maximise, consistent with prudent investment management, total investment return, consisting of a combination of profit income and capital appreciation. The fund seeks to achieve this objective by investing principally in a portfolio of fixed and floating rate Shariah compliant securities (including non-investment grade securities), including Sukuk, Murabaha and Wakala placements and other short term instruments issued by government, government-related and corporate entities located in developed and developing countries.

Franklin Templeton - Templeton Shariah Global Equity

The fund seeks long-term capital growth by investing primarily in Shariah compliant equity securities of companies of any nation, including Emerging Markets. The fund's managers believe that greater value can be found by looking at companies globally rather than by limiting oneself to a single market.

IT'S DOWN TO YOU

We offer online access to all of our plan owners so you can monitor your plan performance daily if you wish. We can't stress enough how important it is you treat your plan like any other financial product you have, review it regularly, ask questions and talk to your financial adviser about anything you are unsure of.

We can't make any investment decisions for you and are not responsible for how the funds perform.

You must be happy with the fund choices you or your adviser makes before going ahead. We do not check their suitability for you.

IMPORTANT INFORMATION

**WE ARE HERE AS PART OF
A LONG-TERM, ONGOING
RELATIONSHIP AND WANT YOU

FUNDS

There's no getting away from the fact that whether you choose low risk, high risk or a combination of both, there is always some risk. In the most extreme of cases this could result in you receiving nothing back from your plan.

Your plan is protected by the Isle of Man Compensation of Policyholders Protection Scheme which will cover an amount equal to 90% of your plan value (subject to the provision of the scheme) should RL360 become insolvent.

This protection does not extend to fund companies becoming insolvent, and because the funds are owned in the name of RL360 it is extremely unlikely that compensation will be available from other schemes.

We would also like to make you aware that fund prices will go up and down during the life of your plan and just because a fund has performed well in the past doesn't mean it will continue to do so in the future. You should also consider the impact of exchange rates on fund prices which might fluctuate purely due to the value of one currency compared to another.
