GLOBAL REACH

While based on the Isle of Man, RL360 is a truly global business. We have offices in Hong Kong, Malaysia, Lebanon, Uruguay and Dubai, and operate in the Far East, Africa, the Middle East, Emerging Europe, Latin America and the UK.

Our international customers span the world, residing in 170 different countries.

BACKGROUND

In 2008, two well-established Isle of Man-based offshore life companies – Scottish Life International Insurance Company Limited (est. 1996) and Scottish Provident International Life Assurance Limited (est. 1991) – came together to form Royal London 360°, and became the international arm of the Royal London Group.

NEW CHAPTER

Five years on, the business evolved once more into RL360, as we became the first international life company to undertake a management-led buyout (MBO). The move was supported by independent private equity firm Vitruvian Partners, and further strengthened by global insurance group MunichRe and our former parent company Royal London Group, who provided an element of long-term financing.

STRENGTH AND STABILITY

This renewed financial strength and strategic stability gave us the resources and drive to build RL360 in line with our specific business objectives. The full RL360 senior management team is deeply committed to future growth. They are based on the Isle of Man, ensuring key decisions are reached quickly and effectively.

Independent actuaries AKG awarded RL360 a B+ rating in November 2020, the joint highest achieved by an international life office, describing RL360 as “a financially strong, standalone operation with very strong operational characteristics”.

SUPPORTIVE STRUCTURE

At RL360 we provide the best of both worlds. We are a young, dynamic company but offer the reassurance and security of being part of International Financial Group Limited (IFGL), with 230,000 policies, over US\$21 billion of assets under administration and 700 staff.

STRONG FINANCIAL PARTNERS

Vitruvian

Vitruvian is currently investing the Vitruvian Investment Partnership III fund which closed in July 2020 at EUR4 billion. Vitruvian has offices in London, Munich, Stockholm, Luxembourg, San Francisco and Shanghai.

Munich Re

Munich Re operates in all lines of insurance and is one of the world’s leading reinsurers, delivering exceptional solution-based expertise, consistent risk management and financial stability. With almost 40,000 employees worldwide, the group achieved a profit of €2.7bn in 2019.

We are audited by **PwC**, the world’s second largest professional services network and one of the Big Four accounting firms.

Our custodians are **Citi**, one of the largest institutional custodians in the world, with \$22.8 trillion in assets under custody.

INVESTOR PROTECTION

Our base on the Isle of Man gives our policyholders exceptional investor protection, with a range of statutory measures designed to first prevent problems occurring, and then to safeguard investments in the unlikely event that we are unable to meet our liabilities.

Solvency: Under the Isle of Man Insurance Regulations 2018 life insurers are required to maintain a minimum solvency margin that means they have sufficient capital to ensure liabilities to policyholders can be met.

Segregation of assets: In 2008, the Isle of Man passed a new Insurance Act with strict requirements for insurance companies based on the island. All insurance companies are required to ring-fence 100% of policyholder assets, ensuring these can never be called upon except to meet the claims and liabilities of policyholders.

So whatever the future holds, our liabilities to our policyholders will always take priority, and client assets could never be made available to liquidators.

We are also required to provide regular solvency calculations to our regulators to demonstrate our financial stability.

Compensation reinsurance:

The Isle of Man operates a policyholder protection scheme with a Policyholders’ Compensation Fund. If a life insurance company is unable to meet its liabilities, the policyholder will be compensated 90% of the insurer’s liability in relation to their policy subject to the terms of the scheme – regardless of where they reside.

The compensation scheme is funded by a levy on all life insurance companies operating on the Isle of Man.

The island also provides an Ombudsman Scheme, which is a free, independent dispute resolution service for customers who have been unable to resolve a complaint with their financial services provider directly.

WORLD LEADER

With a well-established and successful life and pensions business, the Isle of Man is now the top choice for offshore life insurance, for a number of reasons.

Political and economic stability

The Isle of Man is a self-governing dependent territory of the British Crown with its own democratically elected Parliament, judicial system and laws. The island enjoys healthy reserves, supported by a stable and diverse economy and 30 years of consistent economic growth.

Tax policy

The Isle of Man has a clear and simple tax regime with no Capital Gains Tax, Withholding Taxes or Wealth Taxes.

Supportive government

The Isle of Man government understands that the most effective way to create a successful business environment is to engage with the private sector. In turn, this helps the government respond with insight and agility to the challenges of the global economy.

Infrastructure

The Isle of Man has an excellent telecoms and power infrastructure that has seen over £100 million of public and private investment in recent years.

Accessibility

Situated in the Irish Sea, the Isle of Man is equidistant between England, Scotland, Wales and Ireland, and enjoys excellent transport links to the UK and Ireland.

Sophisticated regulation

The island's principal regulator is the Isle of Man Financial Services Authority (IOMFSA), an independent statutory body responsible for the licensing and supervision of Isle of Man based banks, building societies, investment businesses, collective investment schemes and corporate and trust service providers.

It is also responsible for the regulation of the island's insurance and pensions sector. The IOMFSA aims to secure an appropriate degree of protection for policyholders, maintain international confidence in the island's insurance and pension industry, and to deter financial crime.

In 2019, the IOMFSA introduced a new Conduct of Business Code designed to complement the Island's existing regulatory framework and provide enhanced customer protection and greater transparency.

The IOMFSA is highly respected worldwide, and liaises closely with international colleagues to ensure those who choose the Isle of Man for their finance products can be sure of the highest standards of support.

50 yrs

We are supported by a stable and diverse Isle of Man economy with healthy economic growth and 50 years of a national budget surplus.
