Dear Investment Adviser

IMPORTANT NOTIFICATION – PLEASE ENSURE A COPY OF THIS LETTER IS PASSED TO THE ADVISER RESPONSIBLE FOR PROVIDING INVESTMENT ADVICE TO THE POLICIES LISTED AT THE END OF THIS LETTER. THEY MAY WANT TO TAKE SOME ACTION.

Subject – Merger of the Pictet Absolute Return Global Diversified Fund

We have been informed by Pictet Asset Management that it will be merging its Absolute Return Global Diversified Fund with the Pictet Multi Asset Global Opportunities Fund on 30 March 2016. As you provide investment advice to one or more RL360° policies which invest in the merging fund we are writing to you to let you know what this means in respect of these policies.

Please note that as your company is the appointed investment adviser on the policies listed at the end of this letter, you are receiving this correspondence instead of the policyholder. Please ensure that you contact your clients to discuss the details of this change and make any recommendations as appropriate.

Why Pictet is proposing the merger

Pictet believes the value of assets held by the Absolute Return Global Diversified Fund are too low to be managed efficiently, making effective portfolio management difficult. Therefore the Board of Directors of the Fund have decided that a merger is in the best interests of shareholders.

How the merger affects your clients' policies

On 22 February 2016 Pictet stopped accepting subscriptions into the fund. As a result we redirected all regular premiums currently being allocated to the fund to the Invesco Global Targeted Returns Fund. Unfortunately we had no option but to do this ahead of our formal communication to you.

On 11 March 2016 we will start to transfer existing policy holdings from the Pictet fund into the Invesco fund (we do this in advance in order to meet dealing cut-offs and avoid submitting large redemption requests near, or on, the day of the merger).

We selected the Invesco Global Targeted Returns Fund to receive switches, as Pictet's alternative fund is not currently available and it has the same currency options available. The Invesco fund sits in the Hedged/Structured Product sector like the Pictet fund and has outperformed the Pictet fund in terms of the last 2 years performance with a lower risk rating. It also has a lower Annual Management Charge of 1.40% per annum.

It is important to be aware that the performance of a fund can go up and down. Past performance may not be repeated and is no guide to its performance in the future.

Fund strategy comparison

The investment objectives and policies of the merging fund and the alternative fund are below:

	Merging fund: Pictet - Absolute Return Global Diversified	Alternative fund: Invesco - Global Targeted Returns
Investment objective and policy	The fund aims to provide investors with an absolute positive return primarily by investing in a broad and extremely diversified selection of assets. All the various strategies aim to provide investors with a return greater than its benchmark index, EONIA (the "Euro Over Night Index Average" which reflects the average weighted rate of interbank investments from one day to the next in the eurozone).	The Fund aims to achieve a positive total return in all market conditions over a rolling 3 year period. The Fund targets a gross return of 5% p.a. above 3 month EURIBOR (or an equivalent reference rate) and aims to achieve this with less than half the volatility of global equities, over the same rolling 3 year period. There is no guarantee that the Fund will achieve a positive return or its volatility target.
