XX May 2019

THIS IS A NOTIFICATION THAT AFFECTS THE POLICIES LISTED IN THIS LETTER. PLEASE PASS THIS TO THE INVESTMENT ADVISER IN YOUR COMPANY WHO MANAGES THE INVESTMENT CHOICES ON THESE POLICIES, AS THEY MAY WISH TO TAKE SOME ACTION.

Dear Investment adviser

MERGER OF THE AMUNDI FUNDS EQUITY THAILAND FUND AND IMPACT ON RL360 POLICIES

Amundi Funds has announced that it will be closing its Equity Thailand Fund by way of merger (the “merging fund”) on Friday 31 May 2019 (the “effective date”). As you provide advice to one or more policies invested in the fund we wanted to make you aware of the action we will be taking and explain your options for switching to a different fund if you prefer.

We have not written directly to the owners of the policies listed. As each policyholder has appointed your company in the capacity of investment adviser to manage the investment choices on their behalf, you should contact your clients as necessary to discuss the details of this notification and any recommended course of action. The unit linked policies advised by you and impacted by this notification are listed overleaf.

Reason for the merger

Following the company merger of Pioneer Investments with Amundi Group in July 2017, Amundi are now carrying out a rationalisation of its products to provide a streamlined fund range across the enlarged Amundi Group. The Equity Thailand Fund is one of the funds it has decided to merge as part of the rationalisation.

What happens next?

We have now closed the merging fund to new business and switches in with immediate effect. Existing investors can continue to invest in the fund until Thursday 23 May 2019 at which point their holdings will be automatically switched, and any regular premium allocation redirected, into the Templeton Thailand Fund (the “alternative fund”).

The receiving fund proposed by Amundi as part of the merger is not in our fund range, so we have selected the alternative fund as it has a similar investment objective and risk profile to the merging fund. We would like to point out that the alternative fund has higher fund charges.

A comparison of the merging fund and alternative fund can be found in the comparison table overleaf.

Please note that although the switch value will be the same, policies will receive a different number of units in the alternative fund as the unit price is different to the merging fund. Once completed, details of the switch will be available to view via the transaction screen for each policy on our Online Service Centre. If you are not already registered to manage your policy online, then you can sign-up at www.rl360.com.

** 3 Year Standard Deviation – Standard deviation is a statistical measurement which, when applied to a fund, expresses its volatility, or risk. It shows how widely a range of returns varied from the fund's average return over a particular selected period; in this case a 3 year period has been selected. If a fund had an average return of 5%, and its volatility was 15%, this would mean that the range of its returns over the period had swung between +20% and -10%. The 3 Year Standard Deviation figure shows the annualised standard deviation based on the monthly rates of return of the fund over the past 3 years ended 31 March 2019. This risk level is for reference only.
