Dear<Salutation>

MERGER OF THE LEGG MASON IF JAPAN EQUITY A GBP SHARE CLASS AND IMPACT ON YOUR RL360 PLAN - <PRODUCT> - <PLAN NUMBER>

Legg Mason Investment Funds Limited ("Legg Mason") has announced that it will be merging all retail A share classes of its Legg Mason ICVC fund range on 10 May 2021 (the "merger date") into the equivalent non-retail X share class. The **Legg Mason IF Japan Equity A Acc GBP** fund (the "merging fund") which features in the Savings and Investments fund range for your plan is affected by the merger, and as the fund range consists only of retail share classes we have no option but to remove it from the range.

As your plan invests in the merging fund we wanted to make you aware of the action we have taken and explain your options for switching to a different fund if you prefer.

The action we have taken

Upon issuing notification of the planned share class mergers Legg Mason immediately stopped accepting subscriptions into the merging fund, we therefore had to take the following action:

- The merging fund has been removed from the Savings and Investments fund range and is no longer available for investment
- On 2 March 2021 your existing holdings were switched from the merging fund, including the redirection of any regular payment allocation where applicable, to an alternative fund available to the Savings and Investments fund range.

The alternative fund is the **Invesco Japanese Equity Advantage A Acc USD Hedged** fund (the "receiving fund"). The table overleaf provides a comparison of the merging fund and receiving fund for your information. Please note that the merging fund is denominated in GBP, whilst the receiving fund is USD, therefore, if your plan is not denominated in USD, your plan value in the receiving fund will be subject to currency fluctuations.

Please note that although the switch value from the merging fund to the receiving fund will be the same, you will receive a different number of units in the receiving fund as the unit price is different to the merging fund. Details of the switch are available to view via the transaction screen for your plan on our Online Service Centre. If you are not already registered to manage your plan online, you can sign-up at www.rl360.com.

Your options

If you are happy to remain invested in the Invesco Japanese Equity Advantage A Acc USD Hedged fund you don't need to do anything. However, if you would prefer to switch to a different fund available to your plan, it's free of charge and very easy to do. You may want to discuss the options with your financial adviser before deciding.

Switching funds is easy

1 Year Standard Deviation **	27.47%	25.59%

Notes: Information within this table is sourced from Morningstar® and is correct as at 26 February 2021.

* Ongoing Charge includes the Annual Management Charge plus other operational expenses, so better reflects the total costs applied to the fund.

** 1 Year Standard Deviation – Standard deviation is a statistical measurement which, when applied to a fund, expresses its volatility, or risk. It shows how widely a range of returns varied from the fund's average return over a particular selected period; in this case a 1 year period has been selected. If a fund had an average return of 5%, and its volatility was 15%, this would mean that the range of its returns over the period had swung between +20% and -10%.
